

Indian Journal of Pure & Applied Mathematics

Volume 44 • Number 2 • April 2013

CONTENTS

K_0 of hypersurfaces defined by $x_1^2 + \dots + x_n^2 = \pm 1$ <i>by</i> Manoj K. Keshari and Satya Mandal	... 119
Some generalizations of Hadamard's-type inequalities through differentiability for s -convex functions and their applications <i>by</i> Muhammad Muddassar and Muhammad Iqbal Bhatti	... 131
Symmetry group analysis and exact solutions of isentropic magnetogasdynamics <i>by</i> B. Bira and T. Raja Sekhar	... 153
Oblique wave scattering by a semi-infinite rigid dock in the presence of bottom undulations <i>by</i> Harpreet Dhillon, Sudeshna Banerjea and B. N. Mandal	... 167
Boundedness of the fractional maximal operator in generalized morrey space on the heisenberg group <i>by</i> V. S. Guliyev and Yagub Y. Mammadov	... 185
Representation of cyclotomic fields and their subfields <i>by</i> A. Satyanarayana Reddy, Shashank K. Mehta and Arbind K Lal	...203
Translation invariant diffusions in the space of tempered distributions <i>by</i> B. Rajeev	... 231
