

# Indian Journal of Pure & Applied Mathematics

Volume 46 • Number 1 • February 2015

## CONTENTS

On sums of generalized Ramanujan sums <i>by</i> Yusuke Fujisawa	... 1
The dynamics of semigroups of transcendental entire functions I <i>by</i> Dinesh Kumar and Sanjay Kumar	... 11
Holomorphic extension of certain discrete functions on $\mathbb{Z}^n$ and the related problems <i>by</i> Ahmed Abouelaz and Radouan Daher	... 25
Sufficient conditions for univalence and quasiconformal extensions <i>by</i> Murat Çağlar and Halit Orhan	... 41
The Liouville's theorem of harmonic functions on Alexandrov spaces with nonnegative Ricci curvature <i>by</i> Zhenhua Jiao and Qiang Li	... 51
Local duo rings whose finitely generated modules are direct sums of cyclics <i>by</i> M. Behboodi and G. Behboodi Eskandari	... 59
Dirichlet partition on symmetric matrices <i>by</i> M. Ghorbel and M. Ben Farah	... 73
Symmetry identities of $q$ -Bernoulli polynomials of the second kind <i>by</i> Dae San Kim and Taekyun Kim	... 85
Coefficient inequality for certain subclasses of analytic functions associated with Hankel determinant <i>by</i> D. Vamshee Krishna and T. Ram Reddy	... 91
General rotational surfaces with pointwise 1-type Gauss map in Pseudo-Euclidean space $E_2^4$ <i>by</i> Ferdağ Kahraman Aksoyak and Yusuf Yayli	... 107
