

PROCEEDINGS OF
THE INDIAN NATIONAL SCIENCE ACADEMY

No. 5

October 1977

Vol. 43

CONTENTS

Page

Entomology

- Field Data on Intraspecific Variability in Mound Construction and Nesting Habits in Termites and its Ecological Relationships by M. L. ROONWAL, FNA 159

Plant Embryology

- The Mode of Reproduction in *Bothriochloa odorata* (Lisboa) A. Camus and *Paspalum distichum* Linn. by S. P. CHODA and R. K. BHANWRA 175

Mycology

- Trace Element Studies on *Pestalotiopsis funerea* causing Leaf Spot of *Eucalyptus globulus* by R. K. UPADHYAY, D. K. ARORA and R. S. DWIVEDI 189

Plant Pathology

- Seed Leachates and Inhibition of certain Seed-borne Pathogenic Fungi of Bajra (*Pennisetum typhoides*) by S. K. MATHUR and S. SINHA 195

Plant Pathology

- Fungi causing some New Diseases of two Important Crop Plants in India by Y. N. SRIVASTAVA and K.S. BHARGAVA 198
