

PINSA-B

Vol. 66, Part B, Nos 2 & 3 pp 69-166

APRIL & JUNE 2000

CONTENTS

	<i>Page</i>
Mineral Phosphate Solubilization: Agronomic Implications, Mechanism and Molecular Genetics D J Bagyaraj, P U Krishnaraj and S P S Khanuja	69
Multiple Regulatory Circuits for Transcription from the Polyhedrin Gene Promoter of the Autographa Californica Multiple Nucleocapsid Nuclear Polyhedrosis Virus M D Bashyam, A Ramachandran, S Ghosh, P Viswanathan and S E Hasnain	83
Comparative Molecular Biology and Immunobiology of Zona Pellucida: Molecular Basis of P53 Gene Deregulation: An Overview B R Das and B K Nayak	97
Arterial Chemoreceptors (Sensing Fall in Oxygen and Role under Physiological Conditions) Ashima Anand	121
Current Status of Circumsporozoite Protein in Malaria Vaccine Development Dharmendar Rathore and Thomas F. Mccutchan	131
Molecular Insights into Signal Recognition Particle-dependent Protein Targeting Junutula R Jagath and Wolfgang Wintermeyer	145
