## CONTENTS

	<i>Page</i>
Mechanism of Aging <b>M S Kanungo</b>	121
DNA-Repair and Brain Aging: The Importance of Base Excision Repair and DNA Polymerase $\beta$ <b>Kalluri Subba Rao</b>	141
Biology of Aging and Possibilities of Gerontomodulation <b>Suresh I S Rattan</b>	157
Inflammatory Processes of Alzheimer Disease and Aging <b>Caleb Ellicott Finch and Todd Eugene Morgan</b>	165
Sex Steroid Signaling During Aging <b>M K Thakur</b>	179
Stem Cells, Skeletal Muscle and the Mammalian Ageing Process <b>Mohan Toora, Deborah Merrick, Archana Rao and Janet Smith</b>	191
Vascular Hypoperfusion, Mitochondria Failure and Oxidative Stress in Alzheimer Disease <b>Gjumrakch Aliev, Dilara Seyidova, Arun K Raina, Mark E Obrenovich, Maxwell L Neal, Sandra L Siedlak, Bruce T Lamb, Harry Vinters, Joseph C Lamanna, Mark A Smith and George Perry</b>	209
Plasmin System, Alzheimer's Disease and Stroke <b>Rangaraj K Gopalraj and Steven Estus</b>	239
Sources Contributing to the Initiation and Propagation of Oxidative Stress in Alzheimer Disease <b>Mark Chao, Xiongwei Zhu, Arun K Raina, Gjumrakch Aliev, Atsushi Takeda, Robert B Petersen, Akihiko Nunomura, Massimo Tabaton, George Perry and Mark A Smith</b>	251
Impairment of the Ubiquitin-Proteasome System in Ageing <b>Sanjay W Pimplikar</b>	261
