

CONTENTS

| | |
|---|---------|
| On the representation of biharmonic functions with singularities in \mathbb{R}^n <i>by M. A. Al-Gwaiz and V. Anandam</i> | ... 263 |
| Justification of two dimensional model of shallow shells using gamma convergence <i>by J. Raja and N. Sabu</i> | ... 277 |
| A note on the hyper cochrane sum <i>by Tianping Zhang</i> | ... 297 |
| Semi-linear Liouville theorems in the generalized greiner vector fields <i>by Yazhou Han, Qiong Zhao and Yongyang Jin</i> | ... 311 |
| On the solvability of a nonlinear pseudoparabolic problem <i>by S. Mesloub and T. Hayat</i> | ... 343 |
| On λ -compact operators <i>by Manjul Gupta and Antara Bhar</i> | ... 355 |
| A note on a special case of the frobenius problem <i>by Amitabha Tripathi</i> | ... 375 |
| Precise asymptotics for beta ensembles <i>by Xingyuan Zeng and Zhenting Hou</i> | ... 383 |
| Starshapedness in the obstacle problem <i>by Jun Zheng, Zhihua Zhang and Peihao Zhao</i> | ... 405 |
