

Indian Journal of Pure & Applied Mathematics

Volume 49 • Number 2 • June 2018

CONTENTS

Chebyshev centers that are not farthest points <i>by</i> Debmalya Sain, Vladimir Kadets, Kallol Paul and Anubhab Ray	... 189
Laplacian spectrum of non-commuting graphs of finite groups <i>by</i> Parama Dutta, Jutirekha Dutta and Rajat Kanti Nath	... 205
Hankel determinants of the generalized factorials <i>by</i> Sheng-Liang Yang and Yan-Ni Dong	... 217
e -Invertible matrices over commutative semirings <i>by</i> Lixia Zhang and Yong Shao	... 227
Effect of a floating elastic plate/membrane on the motion due to a ring source in water with porous bed <i>by</i> R. Gayen and Najnin Islam	... 239
Remarks on Ramanujam-Kawamata-Viehweg vanishing theorem <i>by</i> F. Laytimi and D. S. Nagaraj	... 257
Ideals in CA-AG-groupoids <i>by</i> M. Iqbal and I. Ahmad	... 265
Homogenization of monotone systems of non-coercive Hamilton-Jacobi equations <i>by</i> Junfang Wang and Peihao Zhao	... 285
Sieve functions in arithmetic bands, II <i>by</i> Giovanni Coppola and Maurizio Laporta	... 301
Quasi-periodic solutions for non-autonomous mKDV equation <i>by</i> Wenyan Cui, Lufang Mi and Li Yin	... 313
Existence and concentration of solutions for sublinear Schrödinger-Poisson equations <i>by</i> Anmin Mao and Yusong Chen	... 339
Domination defect in graphs: Guarding with fewer guards <i>by</i> Angsuman Das and Wyatt J. Desormeaux	... 349
The upper connected vertex Detour monophonic number of a graph <i>by</i> S. Arumugam, P. Balakrishnan, A. P. Santhakumaran and P. Titus	... 365
