

PROCEEDINGS
OF THE
NATIONAL INSTITUTE OF SCIENCES OF INDIA
JULY-AUGUST, 1950

No. 4]

VOL. XVI

[Pp. 207-310

CONTENTS

| | Page |
|--|------|
| First Chandra Kala Hora Memorial Lecture. Growth of the Fishing Industry : Sidelights of Fifteen Years' Work by S. B. SETNA | 207 |
| <i>In Vivo</i> Studies on the 'Anti-Thiamine Factor' in Freshwater Mussel (<i>Lamellidens Marginalis</i>) by K. K. REDDI | 221 |
| Determination of Elastic Constants of Solids by Pulse Method by KRISHNAJI .. | 227 |
| Elastic Constants of some cubic Nitrates by J. BHIMASENACHAR and T. SESHAGIRI RAO | 235 |
| Elastic Constants of Corundum by J. BHIMASENACHAR | 241 |
| An Embryological Study of <i>Levenhookia Dubia</i> Sond. in Lehm by K. SUBRAMANYAM | 245 |
| The Nonlinear Method of Circuit Analysis by RAIS AHMED | 255 |
| Construction of a new combined Vacuum Furnace and Mass Spectrometer for Universal Use by B. N. SRIVASTAVA and V. N. SAHARLA | 263 |
| Adaptive Modifications in a Hill-Stream Catfish, <i>Glyptothorax Telchitta</i> (Hamilton) by BIMLA BHATIA | 271 |
| Cytological Investigation of the Mango (<i>Mangifera Indica</i> L.) and the allied Indian Species by S. K. MUKHERJEE | 287 |
| Band Spectrum of Zinc Bromide by C. RAMASASTRY and K. SREERAMAMURTY .. | 305 |
