

# Proceedings of the Indian National Science Academy

Vol. 55, Part A, No. 6

NOVEMBER 1989

## C O N T E N T S

Page

State of the Art of Polymer Research in India, III : Physical Chemistry of Polymers	M Santappa, FNA	799
Barr Conglomerate : Its Tectonic and Stratigraphic Significance	S P H Sychanthavong, K C Tiwari and D T Brahmhatt	828
Isolation and Purification of DNA-Dependent RNA-Polymerase II from <i>Saccharomyces cerevisiae</i>	Ramesh Chandra	846
Calculation of Skewness Factor with the Help of Fourier Inversion of Heisenberg's Equation related to Isotropic Turbulence	K M Ghosh and C R Chakraborty	852
Kinetics and Mechanism of Rh(III) Catalysed Oxidation of Alcohols by Periodate	M Prasada Rao, B Sethuram and T Navaneeth Rao	858
Kinetics and Mechanism of the Complex Formation between Hexacyano-ferrate(II) and Chromium (III)	W U Malik, S P Srivastava, K K Thallam, V K Gupta and Rashmi Gupta	864
A Boundary Layer Model for the Andaman Islands	Sarat C Kar and N Ramanathan	871
Rotational Relaxation Studies from Rayleigh Scattering, II : Cyclohexane Derivatives	H A Ahmed and G Thyagarajan	886
Rotational Relaxation Studies from Rayleigh Scattering, III : Halogenated Methanes and Ethylene and Carbon Disulphide	H A Ahmed and G Thyagarajan	891
Laser Raman Scattering Studies of N(2-Pyridyl) Thioacetamide	S Gunasekaran, K Manoharan and V P Chitra Devi	896

(Continued on Third Cover)

*(Continued From Fourth Cover)*

Lattice Energies and Optoelectronic Properties of some Ionic Crystals	<b>R R Reddy, T V R Rao and R Viswanath</b>	901
Waves Generated by Disturbances at an Inertial Surface in an Ocean of Finite Depth	<b>B N Mandal and N K Ghosh</b>	906
Thermodynamic and Physico-Chemical Studies of Co(II), Ni(II), Cu(II), Zn(II), Cd(II), $VO^{2+}$ and $UO_2^{2+}$ Ions 0-(N-Pyrrole-2-Carboxaldimino) Phenolate Systems	<b>Kailash Daga, S P Ranga, Praveen Mathur and R K Mehta</b>	912
Colorimetric Determination of Malathion with Methylene Green	<b>U V Naidu, K Seshiah and G R K Naidu</b>	918
