INDIAN NATIONAL SCIENCE ACADEMY
Proceedings of the INSA, Part A (Physical Sciences)
Vol. 59, 1993

CONTENTS

No. 1 January 1993

Page

Megh Nad Saha Medal Lecture—1992: Discotic Liquid Crystals
S Chandrasekhar FNA, FRS 1

Kariamanikkam Srinivasa Krishnan Memorial Lecture—1992: Plasma Processing of Nanomaterials—A Modern Alchemy
K L Chopra FNA 17

Electrochemical Behaviour of 3-Methyl-4-(Substituted Benzeneazo)-2-Isoxazolin-5-Ones
P Venkata Ramana, B Sathya Suryanarayana, D Vasudevan, L K Ravindranath and S Brahmaji Rao 35

Fluorimetric Determination of Nanotrace Cadmium Using 7-Iodo-Oxine-5-Sulphonic Acid and a Cationic Surfactant
Bijoli K Pal and Anil K Chakrabarti 43

Synthesis and Biological Activities of Some 4-Nitrocinnamoylamino Acids and their Dipeptide Derivatives
T M Ibrahim, M F Badie, S A Shedid and A M El-Naggar 51

An Analytical Approximation to the Thermodynamic Functions: The Case of 1-1 Electrolyte Solution with the Chemical Model
Nagat Abdel Rahman Hussein and Abdel Naser Abdel Mougood 57

Mineral Makeup of Clays of Four Soil Pedons from Western Himachal Pradesh **Karan Singh and K P Tomar** 79

Ruthenium (III) Catalysed Oxidation of some Hydroxy Acids by Alkaline Hexacyanoferrate (III)
P K Tandon, Alka Mehrotra, A P Singh and M P Singh 87

Professor Sir Chandrasekhara Venkata Raman Medal Lecture—1991: Radio Science: J C Bose to Now
A P Mitra FNA 97

Page

Sisir Kumar Mitra Memorial Lecture—1992: High Dams in the Himalaya: Environmental Implication
K S Valdiya FNA 133

No. 2 **March 1993**

Radial Motion of a Non-Homogeneous Solid Spherical Body in a Magnetic Field **R K Mal and P R Sengupta** 157

Epoxidation of Crotonaldehyde with Aqueous Hydrogen Peroxide Catalysed by Sodium Orthovanadate
G L Agrawal and Alka Shirvastava 169

Subsurface Deformation of a Layered Half-space due to Very Long Strike-slip Faults **R K Sharma and N R Garg** 175

Studies on the Structure-Activity Relationship of Some New Hydroxy Coumarin Derivatives
Tarek M Ibrahim, Mohamed A El-Gazzar, Ahmed M El-Naggar and Saied A Shedid 189

Piezoelectric and Magnetic Properties of Sodium Acetylacetonate
O M Hemeda 197

Dielectric Studies of Binary Mixtures of Polar Liquids: An Experimental Assessment of Applicability of Winkelmann-Quitzsch and Davis-Douheret Equations (Part I) **S K Ray and G S Roy** 205

Vibrational Analysis of Group Frequencies in *Ortho-Nitro* Phenol
S Xavier Jesu Raja, A William and S Gunasekaran 215

Cerimetric Determination of Ziram, Ferbam and Zineb in Commercial Formulations **D K Sharma and R D Sharma** 221

Errata 225

No. 3 **May 1993**

Professor Brahm Prakash Memorial Award Lecture—1992
Engineering and Technological Issues in Remote Sensing
B L Deekshatulu, FNA 227

Page

Syed Husain Zaheer Medal Lecture—1992
The Sun Never Sets on Distributed Networks
S C Dutta Roy, FNA 257

On Mechanical Properties of Animal Horn, Hoof and Hair
V Rama Rao and Adeel Ahmad 279

Infrared and Laser Raman Spectroscopic Investigations on Phenyl Propanol Amine hydrochloride
Usha Desai and S Gunasekaran 301

Synthesis and Characterization of Triphenylarsenic(V) Dicarboxylates
Feroz Jee, Ashvin K Aggarwal and Prem Raj 309

Study of Nickel Complexes of Some Amino Acid Derivatives
T M Ibrahim, A A Shabana, A A Magdel-Din and H A Hammad 315

Effect of Cumulus friction on Low frequency Oscillations in an Equatorial troposphere
Kaustubha Bhattacharya 321

No. 4 **July 1993**

Satyendra Nath Bose Medal Lecture—1992
Theory of Superconductivity in Layered Metals
Sudhanshu S Jha 331

Fourier Transform Infrared and Laser Raman Scattering Studies on the Structure of Melamine
S Gunasekaran, K Srinivasan and S Xavier Jesu Raja 347

r-Centroids and Franck Condon Factors of CS and CaCl Molecules
G T Naidu and N Lalitha Kumari 353

Rock-Eval Pyrolysis Study of Paleogene Coals of Jammu, J & K
Mahendra P Singh and G P Singh 359

Kinetics of Anation of Aquachromium(III) Ions by *L*-Leucine
Kabir-ud-din, I A Khan and M Shahid 367

Studies on Carrier Facilitated Transport of Alkali and Alkaline Earth Metal Cations Through Liquid Membrane Using Dibenzo-18-Crown-6
Deepak Kale, Sourabh Muktibodh and V W Bhagwat 383

Page

Instability of Hollow Cylinder under Initial Axial Compressive Stress
S Dey and Dipasree Dutta 387

Solvent Effect on the Resin-Catalysed Hydrolysis of Acetamide and Formamide in Propan-2-ol-Water medium
M S Metwally, A Abdel-Razik, M F El Hadi and M A El-Wardany 399

Magneto-Thermoelasticity in a Rotating Half-space with Mechanical Loads **Daval Chand and J M Sharma** 409

No. 5 **September 1993**

Dielectric Polarization of Semiconductor Co – Zn Ferrite
F S Terra, M I Abdel-Ati, O M Hemeda and A M Kfafy 429

Dicothermal Layer Characteristics—A Case Study in the Antarctic Zone of the Indian Ocean **Benny N Peter** 439

Selective Spectrophotometric Determination of Molybdenum(VI) and Vanadium(V) with Resacetophenone Benzoic Hydrazone in Steels and Alloys
C Kesava Rao, V Krishna Reddy and T Sreenivasulu Reddy 449

Residual Elastic Field in Two Welded Half-Spaces Caused by a Long Inclined Strike-slip Fault **Sunita Rani and Sarva Jit Singh** 455

Rare Earth Element Distribution in the Banded Iron Formations of India
C V R K Prasad, N Subba Reddy, K V Subba Rao and J N Walsh 465

Inhibition of Trypsin and Chymotrypsin by Polycations
V H Mulimani and K Sreeramulu 469

Diels-Alder Adduct of Anthrone and Maleic Anhydride and its Application in Conformational Studies
Alaka Srivastava, P K Srivastava and S M Verma 477

No. 6 **November 1993**

The INSA-Vainu Bappu Memorial Award Lecture—1992
Cosmic Ray Astrophysics **R R Daniel,** FNA 489

Page

Professor K Rangadhama Rao Memorial Lecture—1991
Laser Spectroscopy in Atomic and Molecular Physics
V B Kartha, FNA 497

Benthic Foraminiferal Changes Across the Miocene/Pliocene Boundary in the Northern Indian Ocean: Paleoceanographic Implications
Ajai K Rai and M S Srinivasan 507

Studies on the Synergistic Extraction of Rhodium(III) Ternary Complex with Salicyl Hydroxamic Acid and 1,10-Phenanthroline
B R Acharyya and S P Bag 519

Synthesis, Characterisation and Physicochemical Investigation on Cr(II), Mn(II), Co(II), Ni(II) and Cu(II) Chelates of O-(N-Furan-2-Acetylimino) Benzene Sulphonic Acid, O-(N-Furan-2-Acetylimino) Ethane Sulphonic Acid and O-(N-Thiophene-2-Acetylimino) Phenol
Lata Jain, Suresh Jangid, Meenakshi Kacchawah, Anupama Jain and R K Mehta 523

Magnetic, Spectral and Thermal Studies of Lanthanide(III) Isothiocyanate Complexes of 2,2′-Biquinoline Mono N-Oxide
R K Agarwal, S K Gupta and Y K Gupta 529

INSA Materials Science Prize Lecture—1991
Quasicrystals, Crystals, and Twins **S Ranganathan** 533
