

**Proceedings of the
Indian National Science Academy**

Vol. 60, Part B, No. 4, pp. 287-380

AUGUST 1994

CONTENTS

Page

Gene Expression during Post-Embryonic Development: Metamorphosis as a Model	Jamshed R Tata	287
Positional Information and Pattern Formation in Development	L Wolpert	303
Developmental Genetics and Somatic Differentiation of the Muscle Tissue	Francois Gros, Didier Montarras and Christian Pinset	309
Perspectives in Neural Transplantation	P N Tandon and Gomathy Gopinath	319
Disregulation of the Immune System Leading to Autoimmunity	N A Mitchison	327
Natural Autoantibodies and Their Implications	Stratis Avrameas and Therese Ternynck	331
From Transcription to Drug Resistance—The Cytochrome P-450 Link	G Padmanaban	339
Receptor-Mediated Drug Delivery to Macrophages	Sandip K Basu, Sadhana Majumdar, Bratati Mukhopadhyay and Amitabha Mukhopadhyay	345
On the Generation of Genetic Diversity in Microorganisms	Werner Arber	357
The Baculovirus Expression Vector System: Regulation of the Polyhedrin Gene Promoter	Sandeep Burma and Seyed E Hasnain	365
A Step Towards Developing Transgenic Plants with High Nutritional Quality	Anuradha Mehta, K Natarajan, Anjana Raina and Asis Datta	375
